1. Overview

The collective expertise and talent within the West Kent DAB board, shareholders and service providers showcase a rich diversity that resonates with the communities of West Kent. They bring a wealth of experience and cater to a wide range of tastes and interests, reflecting the vibrant tapestry of the towns in the West Kent region.

Our board and shareholders possess a comprehensive understanding of the radio industry, covering various aspects such as radio and audio production, technical solutions, and multiplex management. Their collective knowledge spans both community and commercial radio, united by a collaborative and supportive approach. This model ensures a harmonious synergy among the stakeholders, fostering a dynamic environment for growth and innovation.

West Kent Radio are a key shareholder who operate a community radio station. They have existing business and local authority relationships across the area not to mention listeners who already enjoy their service on analogue FM radio. The team at West Kent Radio have been a key part of this application and, if successful, their representatives on the Board and wider groups will continue contribute.

Furthermore, our service providers encompass a spectrum of radio offerings tailored to the unique needs of communities within our proposed coverage area. They consist of community radio stations deeply rooted in the local fabric, as well as commercial services specifically crafted to cater to distinct communities of interest. Together, they deliver a diverse range of programming that serves communities of identity, locality, and interest across our 15 services.

Through the collaboration and expertise of our board, shareholders, and service providers, we are poised to deliver an exceptional radio experience that will resonate deeply with radio audiences across Maidstone, Tonbridge, Tunbridge Wells and Sevenoaks.

2. Extent of proposed coverage area

About this section

Under section 51(2)(a) of the 1996 Act, we are required to consider the extent of the coverage area an applicant proposes to achieve within the area which has been advertised. This section therefore asks you to describe the coverage you are proposing to achieve. Further questions on the detailed technical arrangements for the proposed service, including questions on the transmission site(s) that you intend to use and your plans for how the multiplexing and distribution of your service will be arranged are contained in Part B of the application form.

Before completing this section of the form, you should read carefully the notes on 'Extent of proposed coverage area' in Section 4 of Ofcom's [guidance notes for licence applicants and licensees](#).

Applicants should note there are confidential questions relating to extent of coverage area in Part B of the application form.

- 2.1 *Please provide a summary, fully consistent with the more detailed information about transmission sites supplied separately in Part B, of the coverage area proposed to be achieved by your technical plan. This should include a description of the target area you are seeking to serve within the advertised licence area, and also any areas you are aiming to serve outside the advertised licence area for this small-scale radio multiplex service. (You may refer to your coverage prediction in the response you provide):*

West Kent DAB's technical proposal is founded on three principles:

1. Deliver a reliable, consistent and high-quality DAB service to as much of the indoor population of the Maidstone, Tonbridge & Tunbridge Wells polygon as possible
2. Create coverage that is sustainable and affordable to our radio broadcasters, both community and commercial
3. Achieve this within a sustainable, long-term business plan.

We are proposing primary sites at **St Julians** between Sevenoaks and Tonbridge, and **Hermitage Lane** in Maidstone, with third a site on the **Royal Wells Hotel** in Tunbridge Wells.

Our proposed coverage reaches:

● Maidstone, Tonbridge & Tunbridge Polygon Population	355,976
● Population covered @ 63dBuV - Total	325,893
● Population covered @ 63dBuV - Within Polygon	283,611
● Population covered @ 63dBuV - Coverage % within Polygon	79.7%
● Overspill population	42,282
● Overspill population - Percentage of Polygon	11.9%

Have your predictions been generated by a commercial organisation? If so, by whom?	Muxnet UK

3. Ability to establish the proposed service

About this section

In Section 3, we are asking questions about the applicant company, its financial and business plan, the relevant expertise and experience of those who will be involved in providing the small-scale radio multiplex service, and the timetable for coverage roll-out. The answers to these questions will enable Ofcom to assess the application under section 51(2)(c) of the 1996 Act. Additional information is requested in Part B of the application form.

In the first part of this section we are asking for details of the applicant's officers (directors or, in the case of LLPs, designated members), its shareholders and participants. Where applicable, we are also asking for details of the officers of the applicant's parent and associated companies or LLPs etc.

If any of the individuals named in your responses are known by more than one name/version of their name, all names must be provided.

Certain persons are disqualified from holding a small-scale radio multiplex licence. This section asks the questions which enable us to consider this for those types of disqualification which apply specifically to bodies corporate. It also asks questions which are relevant to our assessment of the applicant's fitness and properness to hold a small-scale radio multiplex licence.

The response boxes and tables should be expanded or repeated where necessary, or provided in a separate annex.

'Officerships' in this section refers to: directorships of bodies corporate, designated memberships of LLPs, or membership of a governing body of an unincorporated association (including partnerships).

The remaining questions in Section 3 relate to the applicant's financial and business plan, the expertise and experience of those involved, and the planned timetable for launching the proposed multiplex service. Applicants should note there are confidential questions relating to extent of coverage area in Part B of the application form.

Financial and business plan

3.17 *Please provide a high-level estimate of the costs you believe will be required to establish the multiplex service.*

Our aim is to establish a successful small scale multiplex operation, providing community and commercial broadcasters, established and new, with a reliable digital broadcast platform on both affordable and flexible terms.

The board and shareholders have, between them, extensive experience in community radio, local radio and digital radio and particular experience in making new small and medium sized radio projects work.

Low Cost Carriage

Our core ambition is to offer service providers a low cost, easy to access, high quality digital broadcast platform and to ensure its long-term sustainability. To achieve this, we will offer reserved capacity to C-DSP licence holders at a discount to the equivalent rate of unserved capacity. Carriage fees will be invoiced monthly in advance and increase annually by RPI.

Each service provider will be provided with similar carriage contracts, with identical terms and conditions. All will be offered contracts that run to the end of the multiplex licences. We recognise that some service providers may wish to contract for shorter periods, and will accommodate such requests. We believe that our chosen tariff structure provides certainty to service providers over their carriage costs throughout the contract and / or licence term.

Promoting the Opportunity

As well as direct communication, we have promoted the multiplex opportunity via social media and news releases in industry and local press.

Service Providers

The number of confirmed services gives us confidence in the financial stability of our plans to launch and sustain the multiplex. Several of the proposed service providers have worked with the shareholders before or have a positive experience on existing small-scale DAB trials and / or local multiplexes.

Objectives

We have signed Heads of Terms for 15 services. Under our operating model, Kent Capacity Co has agreed to underwrite capacity fees to ensure the multiplex runs cash positive.

Commitment

The shareholders have come together with a shared long term commitment to DAB broadcasting, and are committed to investing in the platform to keep abreast of technical developments during the licence term.

West Kent DAB Limited

Small-scale radio multiplex licence for Maidstone, Tonbridge & Tunbridge Wells - PART A

Establishment and Running Costs

We anticipate the majority of costs to be related to the build of our transmission site - £54,000. Legal and other administrative costs in pre-launch period are assumed at £6,000 and we have included a 12.5% contingency.

Funding

The company will be funded through a combination of equity and primarily shareholder working capital loans. The shareholders have confirmed their ability to cover this funding.

3.18 Please indicate how the costs outlined in 3.17 (above) will be met, under the following headings:

a) Share capital	£100
b) Loan stock from shareholders	£67,500
c) Leasing/HP facilities (capital value)	£0
d) Bank overdraft	£0
e) Grants and donations	£0
f) Other (please specify)	£0
Total	£67,600

3.19 Expanding the table if necessary, please list the providers of the funding which will be used to establish the service, and the amount of funding that each will provide. For incorporated investing shareholders, please provide a copy of the most recent statutory accounts if they are not currently available on Companies House.

- Kent Capacity Co Ltd Dormant; incorporated June 2021

Further information on Funding Ability is submitted in **Appendix G**.

Relevant expertise and experience

- 3.21 *Please provide details of who will be responsible for the day-to-day general management of the multiplex service (for example, dealing with programme service providers and contractual matters). Please also briefly state their previous relevant experience. (Note that any individuals or contractors who cannot be identified at this stage can instead be included in the confidential section (Part B) of the application form.)*

West Kent DAB Ltd is a strong applicant group with collaboration at the heart of its ethos. It brings together three partners, each making a unique contribution by way of relevant skills and knowledge:

- **West Kent Radio** is a community based and focused radio station providing local news and information to Tonbridge, Southborough, Tunbridge Wells, Paddock Wood, Sevenoaks and surrounding villages. It is a charity radio station, staffed entirely by local volunteers, both promoting and reflecting the local environment, whilst providing the best entertainment.
- **MuxCom** has been created as a dedicated platform for investing in and actively participating in small-scale DAB, with a primary focus on West Kent.
- **Kent Capacity Co** is a collaboration of Kent experienced broadcasters and digital radio multiplex managers. It will market opportunities to broadcast across Kent's small scale DAB multiplexes, sell spare capacity on the multiplex and identify new revenue streams on behalf of West Kent DAB. In addition to representing revenue for the multiplex, KCC will also operate its own service 'Kent!' providing a wide mix of adult music and local what's on information for a great day out in Kent.

Their combined experience as service providers and multiplex operators gives us an excellent understanding of what is required – good coverage, service reliability and easy access for programme providers at an affordable and realistic price.

West Kent DAB Limited

Small-scale radio multiplex licence for Maidstone, Tonbridge & Tunbridge Wells - PART A

Multiplex Management

West Kent DAB has entered into a multiplex management agreement with MuxNet UK, who will oversee the build of the multiplex and transmitter network, contracts with service providers, liaison with Ofcom and service providers and oversee day to day multiplex management and service provider liaison ongoing. MuxNet has substantial digital radio experience in terms of both multiplex build and operation, as well as digital radio services.

MuxNet UK has considerable experience in launching, establishing and maintaining local and small-scale DAB multiplexes, being involved in the Bristol and South Birmingham small-scale multiplexes. They have the required technical competence, operational expertise, financial knowledge and aptitude to manage third party relationships successfully.

Multiplex management involves supporting, maintaining and upgrading the multiplex system hardware & software; promoting the multiplex; contracting services to ensure that the multiplex is always full; invoice management and payment collection; and working with programme services to ensure DSPS and regulatory licence compliance.

MuxNet UK will be responsible for the launch of the multiplex and its subsequent day to day operation; in particular:

- Overseeing bit rate variations, enhancements or projects required by service providers, such as EPG provision, temporary services and data developments.
- Working with service providers and the transmission subcontractor to maximise multiplex functionality and efficiency.
- Monitoring and fault reporting, ensuring that the output of all service providers is correctly logged and compliant with legislation and codes.
- Developing new revenue streams.

MuxNet UK will oversee any multiplex re-configurations and these will be undertaken in line with our policies and contractual agreements with service providers.

Key Personnel

Andrew Yeates began his broadcast career over 40 years ago at 2UW Sydney, gaining experience in presentation, production, sales and administration. He moved to Europe in the early 1990s as media consultant concentrating on the emerging broadcasting markets of central and Eastern Europe, with clients including DMG Radio, Crown Communications, RFM France and ZET Poland. More recently, Andrew has been station manager at ATLANTIS Radio, a commercial radio service with a pure 60s format and 1AU Classic Hits, a music service available on DAB. Andrew brings his expertise and knowledge to the applicant, and holds a deep passion for the opportunities that small-scale DAB offers the local community.

West Kent DAB Limited

Small-scale radio multiplex licence for Maidstone, Tonbridge & Tunbridge Wells - PART A

The MuxNet UK team - Gregory Watson, Nick Piggott and Matt Deegan, have been involved in DAB broadcasting since 1999 and the launch of Digital One and the subsequent development of the Now Digital Network.

Since 2008, Gregory Watson and Matt Deegan, along with colleague Nicky Tate, have successfully built the MuxCo, working with local shareholders to ensure that all broadcasters have opportunities to participate in DAB. Gregory has deep experience of regulatory and business affairs, whilst Matt has been involved with strategic and commercial development of digital radio for many years, and leads on commercial opportunities.

Nick Piggott has extensive experience in digital radio technology. He has been deeply involved with Small Scale DAB trials in several locations, as well as the Open Digital Radio project, and has decades of technical experience of Digital Radio, sitting on the Technical Committee of WorldDAB and contributing to the creation of technical standards and guidance papers.

3.22 *Please provide details of who will be carrying out the installation and on-going maintenance of your multiplexing / transmitter equipment (or the name of your proposed transmission and multiplex provider if you intend to use a third-party organisation for these services). Please also briefly state their previous relevant experience. (Note that any individuals or contractors who cannot be identified at this stage can instead be included in the confidential section [Part B] of the application form.)*

Timetable for coverage roll-out

3.23 *Please tell us how soon after licence award you expect your multiplex service to become operational and achieve the coverage you are proposing:*

We intend to launch the Maidstone, Tonbridge & Tunbridge Wells small-scale DAB multiplex within 10 months of approval of our technical plan.

Upon award, we will immediately advance negotiations regarding the proposed transmission sites and liaise with other radio multiplex licensees on any impact our proposed transmitters might have. Once completed, we will seek agreement from Ofcom for the proposed technical plan – mindful that the coverage proposed in our application is an award criterion and that any change will need to deliver broadly equivalent coverage.

We will send final site details to Ofcom for clearance and provide evidence of liaison and agreement with other radio multiplex licensees. Given the time taken to co-ordinate services we recognise the importance getting the final transmitter plans to Ofcom as quickly as possible.

Our timeline then focuses on the following key stages:

- Building and installing the DAB multiplex and transmission chain
- Finalising carriage agreements with the service providers
- Commissioning and testing the transmitter equipment for compliance with Ofcom's Digital Radio Technical Code
- Providing Ofcom with evidence of compliance with the licence and the Digital Radio Technical Code

We have confirmed the availability of all equipment and professional services to meet our timescales.

3.24 *In addition, please provide, as an annex to be submitted with this application, an outline project plan with timeline (e.g. a Gantt chart or similar) showing the high level activities and tasks leading up to the launch of your multiplex service.*

A GANTT chart is included in **Appendix E**.

4. Involvement of C-DSP providers; demand or support from programme providers

About this section

Section 51(2)(ca) of the 1996 Act requires Ofcom to take into account the desirability of awarding a small-scale radio multiplex licence to a body corporate that is providing – or proposing to provide – a C-DSP service in the locality being advertised (or involving such a person as a participant in the licence-holding company).

Section 51(2)(f) of the 1996 Act requires Ofcom to take into account evidence that the applicant has support from providers interested in having their existing or planned programme services carried on the proposed multiplex. Note that we do not require applicants to provide us with a full line-up of services they intend to provide, or details about the content of those services.

Involvement of C-DSP providers

4.1 *Is the applicant body proposing to provide its own C-DSP service on the multiplex?*

No

4.2 *If the answer to the above question is 'yes', please provide a name and brief details of this proposed service. If the service is already licensed by Ofcom, the licence number should be provided:*

N/A

4.3 *If the answer to the above question is 'no', please provide details of any participant in the applicant body that is proposing to provide a C-DSP service on the multiplex. In this context, a "participant" refers to a person who holds or is beneficially entitled to shares in the applicant or possesses voting power in the applicant. If the service is already licensed by Ofcom, the licence number should be provided. Please refer to the nature of the participation (e.g. shareholding or agreement in relation to voting power):*

West Kent Community Radio

- C-DSP for West Kent Radio (analogue licence CR102851)

Demand or support from programme providers

4.4 Please provide in the table below (expanding the table if necessary) the names of providers (or prospective providers) of community or local digital sound programme services who have expressed their demand or support for the provision of the proposed multiplex service in the area to be served by the multiplex service. 5. Fair and effective competition

About this section

Section 51(2)(g) of the 1996 Act requires Ofcom to assess whether, in contracting or offering to contract with programme service providers, the applicant has acted in a manner calculated to ensure fair and effective competition in the provision of community and local digital sound programme services. In assessing applications, we need to have confidence that the prospective small-scale radio multiplex licensee has approached a wide range of potential service providers. Negotiations that have taken place between the applicant and potential service providers need to have been demonstrably fair, and the terms of any contract for service provision must be fair and non-discriminatory. Applicants should note there is one further question relating to fair and effective competition in Part B of the application form.

5.1 *Please detail the measures that have already been taken, and will be taken before and during the licence period, to demonstrate that, in contracting or offering to contract with programme services providers, the applicant has acted in a manner calculated to ensure fair and effective competition in the provision of such services.*

For example, how have you sought to engage a broad range of prospective service providers including those not directly involved as participants in the application and those who have decided not to proceed to express an interest or agree heads of terms at this stage, and how have you sought to make prospective service providers aware of your proposals and potential terms for carriage?

Our application is made by a consortium who are committed to providing affordable and efficient digital radio services for West Kent.

We have contacted all community radio services that broadcast within and / or are audible within the licence area. We have identified that there is strong interest and support for a small-scale multiplex on the terms and conditions that we have proposed.

We have also discussed the opportunity with community services that currently do not serve the area, as well as commercial services who are looking for carriage on multiple multiplexes, and have received equally strong support.

We are therefore confident that we will provide a strong line-up of local, community and commercial services on the multiplex from launch, covering a wide range of tastes and interests; local, regional and national.

We will continue to promote opportunities on the multiplex to broaden the range of formats and suppliers on the multiplex.

If successful, we commit to work with all community radio providers based within the licence area and who wish to broadcast on the multiplex.

West Kent DAB Limited

Small-scale radio multiplex licence for Maidstone, Tonbridge & Tunbridge Wells - PART A

In approaching prospective programme service providers, we have acted in a manner to ensure fair and effective competition in the provision of community and local digital sound programme services:

- We contacted the known potential service providers; both local and national.
- We created and maintain a register of requests for capacity for services, and those requests are assessed on a 'first-come, first-served' basis. Details of our contacts and discussions with prospective programme service providers are attached in **Appendix H**.
- We have published and provided each prospective service providers a rate card which identifies tiering for Reserved and un-reserved capacity.

6. Declaration

About this section

This form must be submitted by the body corporate which will hold the licence. The declaration must be certified by a company director or the company secretary, and covers all information provided by in the applicant in both Part A and Part B of the application form. The declaration must also be dated.

- a) I hereby apply to Ofcom for the grant of a licence for the small-scale radio multiplex licence described above and declare that the information given in this application form is, to the best of my knowledge and belief, correct.
- b) I further declare and warrant:
 - i) that the applicant is not a disqualified person within the meaning of that expression as defined in Part 2 of Schedule 2 to the Broadcasting Act 1990, as amended, or as a result of a disqualification order under section 145 of the Broadcasting Act 1996;
 - ii) that having made all reasonable enquiries neither the applicant nor any person controlling the applicant, as result of the grant to me of the licence, breach any requirement of Schedule 14 to the Communications Act 2003 with regard to the accumulation of interests in broadcasting services or to the restrictions on cross-media interests;
 - iii) that the applicant is not disqualified by virtue of the provisions of section 143 (5) of the Broadcasting Act 1996 in relation to political objects and the provisions of section 144 (3) of the Broadcasting Act 1996 in relation to the provision of false information or through the withholding of information with the intention of misleading Ofcom; and
 - iv) that no director or person concerned directly or indirectly in the management of the Licensee is the subject to a disqualification order as defined by section 145 (1) of the Broadcasting Act 1996.
- c) I understand that Ofcom reserves the right to revoke the licence (if granted) if at any time any material statement made to Ofcom is found to be false and to have been by the applicant or any member or officer thereof knowing it to be false. I also understand that under sections 144 and 145 of the Broadcasting Act 1996, the provision of false information could incur a criminal conviction and a disqualification from the holding of a Broadcasting Act licence. I further certify that, to the best of my knowledge, any matters which might influence Ofcom's judgement as to whether the directors and substantial shareholders involved in this application are fit and proper persons to participate in a radio licence, have been made known to Ofcom.
